Projects

BestBuy Clone

[GitHub](#) 

[Live Demo](#) 

- Tools used: HTML, CSS, JavaScript, Firebase, GitHub
- Developed a responsive BestBuy e-commerce website clone using HTML, CSS, and JavaScript, optimized for all screen sizes.
- Implemented features like product filtering, cart management (using localStorage), and dynamic UI updates.
- Integrated Firebase Authentication for secure user login and sign-up functionality.

SocialSynced

[GitHub](#) 

[Live Demo](#) 

- Tools Used: frontend, Node.js, Express.js, MongoDB, Chakra UI
- Built a full-stack social media platform with features like user authentication, post creation, and real-time updates.
- Used React for the frontend, Node.js and Express.js for the backend, and MongoDB for data storage.
- Styled the application using Chakra UI, focusing on responsive design and accessibility across devices.

StudyGenie – AI-Powered Study Companion

[GitHub](#) 

[Live Demo](#) 

- Tools Used: React, Tailwind CSS, Node.js, Express.js, MongoDB, OpenAI API, Cron Jobs
- Designed an intelligent study assistant where students can input syllabus topics and deadlines to get personalized plans.
- Designed an intelligent study assistant where students can input syllabus topics and deadlines to get personalized plans.
- Integrated OpenAI API to generate daily study schedules, flashcards, and custom quizzes based on user input.
